

Burke Police Work Dog Academy

Training and Supplying Police Working Dogs for over 30 years

About Us:

The Burke Police Work Dog Academy is owned and operated by Donald Burke, who, for the last 30 years, has been a benefactor to law enforcement through his work with K-9 units throughout Canada.

Mr. Burke is the President and CEO of a highly successful manufacturing business in Quebec and has used his resources of time, money and contacts in working with agencies all over the world to enhance their K-9 units. He has personally trained police service dogs over the years and general purpose dogs in the areas of narcotic and bomb detection. In addition, he has used his personal dogs in support of police activity in police investigation, search and rescue and correctional institute control. One of his proudest achievements was the foundation of the **Quebec Dog Handlers Association**, which was to improve training methods and to establish standards for K-9 handlers in the province of Quebec.

Realizing that Law Enforcement has become more difficult every day, Mr. Burke knows that Law Enforcement agencies need to use every tool available to keep criminal activities in-check. Because of the 9-11 terrorist attack and more recent attempts to bomb aircraft, he decided to create the Burke Police Work Dog Academy to develop excellent bloodlines in working dogs and to provide the best available training.

The Burke Police Dog Academy was founded to help support smaller police K-9 units that do not have the necessary budgets to purchase and train police service dogs. To that end, Burke offers a program that can assist police agencies in the acquisition or enhancement of their K-9 units. Ask about our "K-9's for Cops" program.

Our Objective:

The Burke Police Dog Academy's main objective is to contribute to law enforcement agencies, and the communities they serve, by supplying the best quality dogs available at affordable prices.

Owner Donald Burke & Faldo

About our Facility:

The Burke Police Dog Academy is located on 100 acres of prime land that has open and forested areas on the outskirts of Moncton, New Brunswick in Canada. Our kennels are state of the art facilities that can house 20 dogs. The structure includes 20' X 6' dog runs with in-floor heating and air conditioning and a modern grooming centre. It also contains a complete training infrastructure with an agility course for workouts, a zodiac boat for cadaver work on the water, bomb and drug detection courses and search and rescue courses in open fields and bush.

With top trainers, we can train to any police standard. You provide us with your standard and we will meet and execute these expectations to your satisfaction.

This is an ideal breeding and training facility with the best accommodations.

About our Dogs:

The Burke Police Dog Academy is committed to offering the finest dogs available that are suited for law enforcement, narcotics and bomb detection and search and rescue operations. We sell only to police, military and search and rescue organizations.

Genetics:

It is becoming more difficult to find proper genetics in dogs that are suitable for police work and, to that end; Burke introduced a program over the years that accumulated frozen sperm from the finest German and Czech police dog lines from all over the world. These specimens were taken from some of the best police working dogs in North America and Europe to help create the finest bloodlines available. All specimens come from successful, proven police working dogs.

Burke also has its own unique breed line which has given an 80 per cent success rate in producing dogs with the drive and nerves required to become a police service dog. We achieved this through many years of research and cooperation from police organizations from all over the world during the last 30 year period.

Training:

We sell trained dogs that have completed a 16 week training course at our training facility with experienced, referred police dog handlers who can supply validations by well renowned police K-9 organizations.

We also sell high quality, untrained "green" dogs for your own training purposes. The quality of the dog is as important as the quality of the trainer.

We limit our breeding to 50 dogs per year so take advantage of this unique opportunity.
